

ALERT ID	SOURCE SYSTEM	ALERT TIME	ANALYST
CLD-0106	Endpoint Protection Dashboard	2026-08-13 12:57:49	Eshak Basta

ALERT (WHAT FIRED, ON WHOM OR WHAT):

- A daily security summary reported one device with active unresolved threats.

HYPOTHESIS (BOTH DIRECTIONS):

- Malicious: A new endpoint compromise requiring investigation.
- Benign: A duplicate alert referencing an already investigated incident.

EVIDENCE CHECKED:

- The endpoint security summary was compared against previously investigated alerts. The affected device matched **LDN-WS-117**, which had already been investigated in **CLD-0102** and confirmed as an active malware incident.

VERDICT:

True positive	False positive	Duplicate	Escalate	Insufficient data
---------------	----------------	-----------	----------	-------------------

SEVERITY:

- Informational
- The alert was re-rated to Informational because it duplicated a previously investigated incident and did not represent new malicious activity.

ACTION:

- Closed the alert and cross-referenced **CLD-0102** to avoid duplicate incident tracking.

JUSTIFICATION:

- The alert referenced the same compromised endpoint that had already been investigated and documented in **CLD-0102**

MITRE ATT&CK:

- None
